

## **CMI's New Patent Pending Direct Burial Ground Clamp**

CMI's new Grounding Clamp is a tremendous labor saver, and extremely versatile.

Pipe Range:  
1/2" – 1"

Rebar Range:  
3/8" – 1"

Ground Rod Range:  
1/4" – 1"

Wire Range:  
#10 sol - #2 str

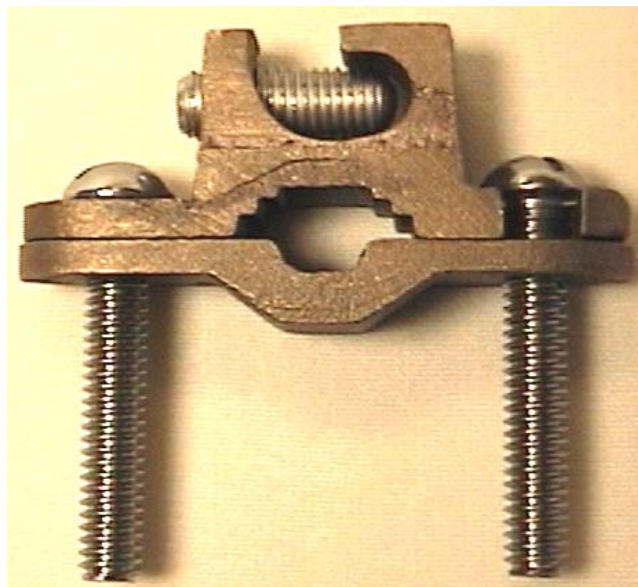

Mechanical  
Connection/Splice:  
Two #8 Sol

Configure any job in  
1/3 the time by  
presetting clamps  
with lay-in feature.

**Constructed from  
Bronze Alloy and  
Stainless Steel Screws  
for Direct Burial.**

**Patent Pending**

*Low Profile Design - Allows  
sufficient concrete coverage*

Always had trouble pulling  
wire through those holes and  
bending it around Light Pole  
Anchors?

Did you always need 3 hands  
to install some ground  
clamps for rebar?

Did you always have trouble  
pulling ground wire through  
those holes to make a  
Continuous Loop?

**NO MORE!** The New JRD is  
here! Ask your counter  
salesperson for it today!

**SAVE MONEY!!!!** CMI's  
new Ground Clamp  
allows the Electrical  
Distributor and the  
Contractor to combine  
**FOUR** clamps into **ONE!**  
It eliminates:  
1) Rebar clamp  
2) Clamp w/steel screws  
3) Clamp w/brass  
screws  
4) Direct Burial Clamp

**VERSATILE!!!!**  
Only a few feet of  
ground wire left on your  
roll? No worries -  
**The JRD is UL Listed for  
mechanically connecting  
2 #8sol wires also!**

No need to carry all  
those different  
combinations on your  
shelf or truck!

**Listed for Direct  
Burial in Earth &  
Concrete**
