

**Easy-to-carry
handle**

CMI's REV-SS Single Speed Primary Pump

**The Highest Energy
Saving Option to
Variable Speed**

- Compatible with All Heat Pumps and Automated Systems
 - 115-208-230V Multi Voltage
 - Highest Hydraulic Flow of Any 1.5 – 3 HP Pump @1725 RPM's
 - Maximizes Energy Efficiency
- Hydraulic Range from 28 – 46 Feet of Total Dynamic Head

Additional Features

- Single Speed DOE Certified
- Uprated 2HP Equivalent Medium Head Pump
- Super Quiet Operation at Full Flow
- 1 1/2" – 2 1/2" Plumbing Interface
- Use for Primary, Booster, or Waterfall Application
- "Never Run Dry Weir"
- Self-Priming with as Little as 20 GPM Flow Rate
- Patented & Hydraulically Redesigned Pump & Motor

Trademarks & Certifications

- Patent #11415137
- DOE/CEC Certified
- CSA C22.2 NO. 108.01 Compliant
