

CMI's Thermocraft®

Field-Modifiable Weatherproof Box

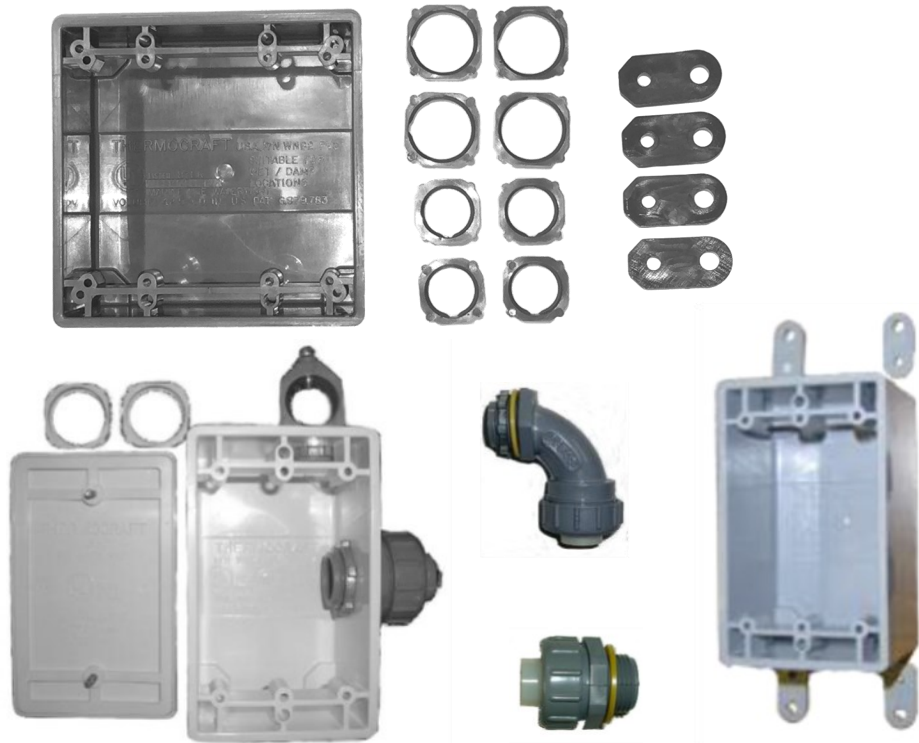

meets **NEC** requirements & is **UL** "Listed for the Purpose".

CMI's box is **22.5** vs. 18 cubic inches for a standard single gang Weatherproof Box.

The box comes with or without a selection of $\frac{1}{2}$ " or $\frac{3}{4}$ " lock nuts and ears to be used with threaded assemblies, weatherproof hubs, or liquid tight fittings.

CMI's box is economical to stock and gives you the freedom to use the exact size and geometry you need for any job.

Comes in single gang and double gang, grey or white.

\$SAVE MONEY!!!!

No more wasted trips to get the exact box that you need for a job.

No need to carry all those different combination boxes on your truck.

Using a hole saw, drill holes into the box on the pre-marked lines and build your own combination on the jobsite. **Instructions are molded to the back of the box.**
